Security Solutions

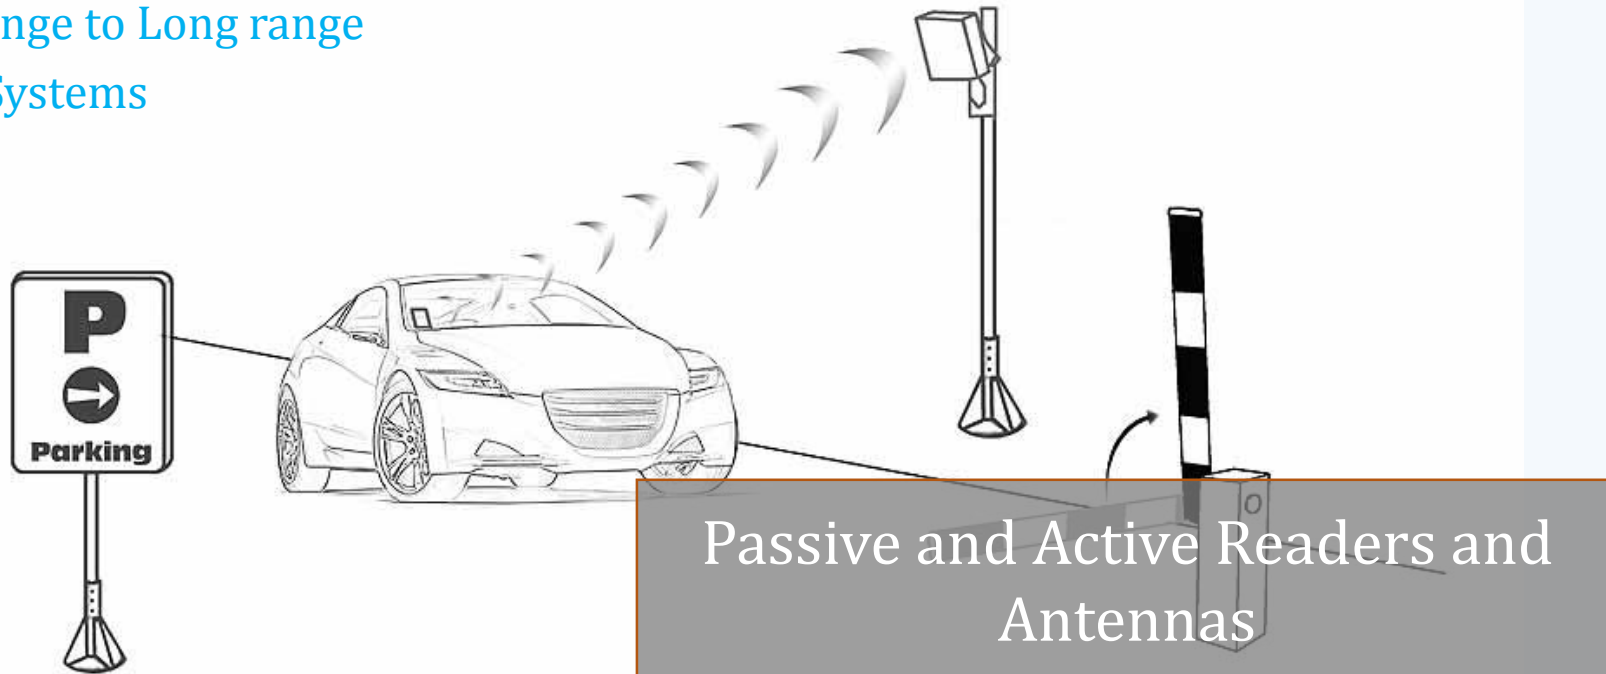

- 1** **Periphery Surveillance**
Create additional surveillance around the premises
- 2** **Visitor Management**
Screen visitors and maintain records
- 3** **Outdoor Surveillance**
Monitor your premises
- 4** **Indoor Surveillance**
Monitor discreet places
- 5** **Public Address System**
Easy communication across your network
- 6** **Fire, Gas & Smoke Leakage**
Protect your building from any mishap
- 7** **Secure Access System**
Biometric or Facial Recognition based entry
- 8** **Intrusion Detection & Alarm System**
Set up safe zones in your premises
- 9** **Common Area Appliance Control**
Lights that switch on automatically as you walk by
- 10** **Centralized Control Station**
Monitor & Control through a unified single interface

Automated Car Entry

Car parking for the authorized residents' cars based on RFID with automatic entry / exit point opening.

Mid range to Long range
RFID Systems

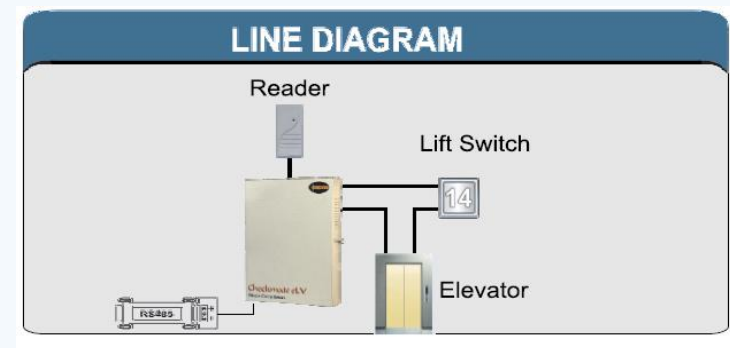

Access based Elevator

Secured access to smart buildings.

Visitor, Residents, Maid servant and others has to flash the card and then select the floor to use the lift.

Guard Patrolling & Monitoring

Guard Patrolling & Monitoring System

Guard patrolling is essential to make sure that the premises is safe and secure. Security guard shall carry a hand held reader to the specific hotspots (a location where RFID tags are placed) and the reader records the date and time of the security guard visit to the hotspot.

Hotspots

Networking, Wi-Fi, Multi VDP, Solar Systems

- **Networking system** – Automat provides a comprehensive networking and wi-fi system.
- **VDP – Video Door Phone** at each houses shall ensure the visitor is being looked before allowing access to enter into the House. We provide multi VDP for apartments or gated community.
- **Solar Systems** – Automat provides Solar lighting solutions with the required stabilizer and UPS system for a greener building.

Thank you
